Ofício nº 63/2025-GABP

Assunto: Encaminha Lei Ordinária Sancionada e Promulgada

14 JUL 2025

Senhor Presidente

Em atenção ao constante no OF. nº 70/2025, em que Vossa Excelência encaminha o Autógrafo de Lei nº 7923/2025, (Projeto de Lei nº 66/2025), temos a honra de encaminhar cópia da **Lei nº 9.659, de 11 de julho de 2025**, devidamente SANCIONADA E PROMULGADA, a qual foi publicada em 11 de julho de 2025.

Na oportunidade, renovo a Vossa Excelência protestos de estima e consideração.

Atenciosamente,

**ALEXANDRE AUGUSTO FERREIRA
PREFEITO**

Ex.mo Senhor
VER. DANIEL BASSI
Presidente da Câmara Municipal de FRANCA/SP

LEI Nº 9.659, DE 11 DE JULHO DE 2025.

(Autoria: Vereador Leandro Patriota)

Dispõe sobre a instituição do Programa
Cooperação de Combate à Dengue no município
de Franca.

ALEXANDRE AUGUSTO FERREIRA, Prefeito Municipal de Franca,
Estado de São Paulo, no exercício de suas atribuições legais,

FAZ SABER, que a Câmara Municipal APROVOU e ele PROMULGA, a
seguinte LEI:

Art. 1º Fica instituído o Programa Cooperação de Combate à Dengue que visa incluir entre as políticas regulares e emergenciais de combate à dengue a cooperação sistemática entre agentes municipais e lideranças locais civis e religiosas do Município para a melhor dispersão da informação e controle da doença.

Parágrafo único. Entende-se por liderança local o indivíduo de reputação e comportamento ilibados com grande influência em sua comunidade, capaz de disseminar informações úteis à coletividade e com poder de influenciar positivamente os cursos de ação locais.

Art. 2º As lideranças locais civis e religiosas serão convidadas pelo Poder Público a integrar o sistema de cooperação disposto nesta Lei, podendo dele se desvincular a qualquer tempo, sem quaisquer obrigações a cumprir, a fim de disseminar em suas respectivas comunidades informações sobre a dengue, sintomas da doença, métodos de prevenção e quaisquer outras que se julgar convenientes e oportunas no combate à doença.

Art. 3º O Programa Cooperação de Combate à Dengue terá como diretrizes:

§ 1º A capacitação e o fornecimento de material informativo às lideranças participantes do sistema de cooperação para o combate à dengue, visando a adequada dispersão da informação e a eficiência e eficácia no combate à doença.

§ 2º A colaboração entre o Poder Público e as lideranças locais civis e regionais na identificação de áreas com focos do mosquito *Aedes aegypti* e na promoção de ações de mobilização comunitária para eliminar os possíveis focos, são ações e condições obrigatórias para a participação no sistema de cooperação.

Prefeitura Municipal de Franca

Rua Frederico Moura, 1.517 - Cidade Nova

Franca/SP - Cep: 14401-150

CNPJ: 47.970.769/0001-04 - I.E: isento

Art. 4º Fica vedado às lideranças atrelar às atividades do sistema de cooperação quaisquer atividades estranhas a este, especialmente de natureza política, própria ou de terceiros, configurando a identificação de tal exercício de atividade estranha, motivo para desligamento automático da liderança do sistema de cooperação.

Parágrafo único. Deverá haver comprovação inequívoca do exercício de atividade estranha ao sistema de cooperação para o combate à dengue disposto nesta Lei, bem como deverá ser oportunizada ampla possibilidade de defesa à liderança implicada.

Art. 5º As lideranças porventura participantes do sistema de cooperação não serão remuneradas, sendo sua participação e atuação consideradas serviço voluntário para a comunidade.

Art. 6º O Poder Executivo poderá regulamentar a presente Lei, no que couber, para a sua implementação.

Art. 7º Esta Lei entra em vigor na data de sua publicação.

Prefeitura Municipal de Franca, 11 de julho de 2025.

INTERNATIONAL STANDARD

The International Standard Organization (ISO) is a non-governmental organization that develops and publishes international standards. These standards are used by governments, businesses, and organizations around the world to ensure consistency and quality in products and services. The ISO is composed of member organizations from various countries, each of which has its own national standards organization. The ISO's work is based on the principle of consensus, and its standards are developed through a rigorous process of consultation and agreement.

The ISO's standards are used in a wide range of industries, including manufacturing, construction, healthcare, and education. They provide a common language and framework for organizations to follow, which helps to reduce the risk of errors and improve the efficiency of their operations. The ISO's standards are also used by governments to regulate the quality of products and services, and to ensure that they meet the needs of their citizens.

The ISO's standards are developed by technical committees, which are made up of experts from member organizations. These committees meet regularly to discuss and develop new standards, and to revise existing ones. The ISO's standards are published in English, and are available to member organizations at a reduced cost. They are also available to the public for purchase.
